EDUCATION

Duquesne University, Pittsburgh, PA
Bachelor of Science in Data Science

Expected December 2027
GPA: 3.15

RELATED EXPERIENCE

Research Experience

September 2026 – Present

GTEX Gene Expression Research Project, Duquesne University

- Analyze GTEX V11 RNA-seq data with 74,000+ genes and 170+ samples using Python and VS Code.
- Clean, filter, and visualize gene expression data using Pandas, NumPy, and Matplotlib.
- Perform quality-control and exploratory analysis on sequencing depth, gene expression, and sample variation.

Operations Assistant & Data Analyst

May 2025 – Present

Duquesne University, Resident Life, Pittsburgh, PA

- Analyze housing, inventory, maintenance, and occupancy data to identify trends and support operational planning.
- Develop Excel reports and dashboards, maintain accurate records, and clean operational datasets for analysis.
- Collaborate with Residence Life staff to improve workflow efficiency and student services.

Data Science Intern

January 2026 – Present

Attawheed Islamic Center, Pittsburgh, PA

- Clean and preprocess membership, attendance, event, and program data using Python (Pandas) and SQL, resolving missing and inconsistent records before analysis
- Analyze organizational data using Exploratory Data Analysis (EDA) to identify trends, outliers, and patterns that support planning and decision-making
- Create interactive dashboards in Power BI and Tableau to track membership, attendance, events, and program activity
- Assist in developing and testing machine learning models using Python and Scikit-learn
- Collaborate with team members to validate data quality and ensure accurate analytical results
- Document data-processing steps, analytical methods, and model results to keep projects organized and reproducible

TECHNICAL SKILLS

- **Programming:** Python, R, SQL, C, Java, JavaScript
- **Data & Analytics:** Pandas, Scikit-learn, Exploratory Data Analysis (EDA), Data Wrangling, Machine Learning
- **Tools:** Excel, Power BI, Tableau, Access
- **Languages:** Arabic, French, English

ADDITIONAL EMPLOYMENT

Parkhurst Dining

May 2024 - April 2025

Barista and Cashier, Duquesne University, Pittsburgh, PA

- Maintained detailed records of sales, demonstrating attention to data accuracy and consistency
- Applied problem-solving skills to resolve customer issues quickly and effectively
- Collaborated with a diverse team to improve workflow efficiency and customer satisfaction
- Balanced multiple tasks in a fast-paced environment, strengthening time management and organizational skills
